

What is the Fidelis Care Drug List?

A drug list is a list of covered drugs. Fidelis Care works with a team of health care providers to choose drugs that provide quality treatment. Fidelis Care covers drugs on our drug list, as long as:

- The drug is medically necessary
- The prescription is filled at a Fidelis Care network pharmacy
- Other plan rules are followed

For more information on how to fill your prescriptions, please review your plan document or other plan materials.

Can the Drug List change?

The drug list may change from time to time as described in the plan document or other plan materials. The enclosed drug list is the most current drug list covered by Fidelis Care. To get updated information about the drugs covered by Fidelis Care, please visit www.fideliscare.org or call Member Services at 1-888-343-3547, 7 days a week, and 24 hours a day.

How do I use the Drug List?

There are two ways to find your drug on the drug list:

1. Medical Condition

The drug list starts on page (5). The drugs on this drug list are grouped by the type of medical conditions they are used to treat. For example, drugs used to treat a heart condition are listed under “Cardiovascular”

- If you know what your drug is used for, look for the category name in the list that starts on page (5)
- Then look under the category name for your drug

2. Alphabetical Listing

If you are not sure what category to look under, look for your drug in the Index that starts on page 123. The Index is an alphabetical list of all the drugs in this document. Both brand name drugs and generic drugs are in the Index.

- Look in the Index and find your drug

- Next to your drug, see the page number where you can find coverage information

- Turn to the page listed in the Index and find the name of your drug in the first column of the list

For more information about your Fidelis Care prescription drug coverage, please look at your plan document and other plan materials. If you have questions about Fidelis Care, or this drug list please visit www.fideliscare.org or call Member Services at 1-888-343-3547, 7 days a week, 24 hours a day.

3

Fidelis Care Drug List

The drug list gives information about the drugs covered by Fidelis Care. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug.

Generic drugs usually cost less than brand-name drugs, but provide the same quality of treatment. Upon release of a generic drug to the market, the generic drug will generally be added to the formulary and the associated brand drug will be removed. However, some generic drugs do not cost less than brand-name drugs and may not be added to your formulary.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., LIPITOR). Generic drugs are listed in lower-case italics (e.g., atorvastatin).

The information in the Requirements/Limits column tells you if Fidelis Care has any special requirements for coverage of your drug. These requirements and limits may include:

- Prior Authorization: Fidelis Care needs you (or your doctor) to get prior approval or authorization for certain drugs. This means that you need to get approval from Fidelis Care before you fill your prescriptions. If you don't get approval, Fidelis Care may not cover the drug
- Quantity Limits: For certain drugs, Fidelis Care limits the amount of the drug that it will cover. For example, Fidelis Care provides 2 inhalers per 25 days per prescription for albuterol sulfate inhaler. Fidelis Care also limits the amount of drugs you can receive within a class of drugs. These classes have an "\$" next to

them on the drug list. For these classes, only one drug should be taken at a time for safety reasons. This may be in addition to a standard one-month or threemonth supply

- Step Therapy: Fidelis Care needs you to try certain drugs as the first step to treat your medical condition before covering another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Fidelis Care may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Fidelis Care will then cover Drug B

Why do my diabetes drugs have a different copayment*?

Some diabetes supplies, insulin, and oral medications are provided as a part of a separate benefit setup. This means that the amount you pay may differ from the other drugs listed on this formulary. These drugs have a '^' next to them on the drug list. See your Summary of Benefits to find out how much you will pay for these drugs.

4

What if my drug is not on the Drug List?

If your drug is not on this drug list, call Member Services and make sure that your drug is not covered. If you learn that Fidelis Care does not cover your drug, you have two choices:

- Ask Member Services for a list of similar drugs that are covered by Fidelis Care.

When you get the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Fidelis Care. Similar drugs that are preferred and covered by your plan's formulary may be easier to obtain and lower cost to you than nonpreferred drugs.

- Ask Fidelis Care to make an exception and cover your drug. You can ask us to cover your drug even if it is not on our drug list.

How likely is it that I will get an exception?

Generally, Fidelis Care will only approve your request for an exception if the preferred drugs included on the plan's drug list, the lower cost-sharing drug or additional utilization restrictions would:

- Not be as effective in treating your condition
- Cause you to have adverse medical effects

How do I find out if my exception is granted?

When you ask for a drug list formulary exception, please send a statement from your prescriber that supports your request. Then:

- We will make our decision within 24 hours of receipt of the information necessary to make a decision.
